Subject: RE: Reissue of Reissue

Hi Jean,

After further discussion, we actually feel that the problem with this reissue is that it attempts to broaden more than two years after the patent issue date. According to PALM, the patent issued 10/25/01. This reissue was filed 3/25/04, while the first reissue was still pending. The rejection under 251 should be made for this reason, and not the reason given in the prior email. Sorry for the change, but this situation is a little more complicated than we originally understood it to be.

Terry

Susan would you please send the number to the people in the CC.

Thanks Jean

Hi Jean,

We have further discussed this issue and would like to have a little more information. Can you tell us the application number of the first reissue? Has it issued yet?

Thanks!

Terry
